

South Central US Regional Turf Spray Program

Bentgrass Greens – Cool Season

With this geography-specific spray program, superintendents have a customized rotation management plan for disease control. Be sure and include these important rotations in your plan and have strong, resilient turf all year long.

- Intrinsic® brand fungicides provide a strong foundation of plant health benefits, including broad-spectrum disease control, stronger roots and higher stress tolerance.
- The new, turf-safe Maxtima® fungicide is a DMI that delivers long-lasting disease control of key diseases at any temperature for rotation flexibility and year-round confidence.

South Central US Bentgrass Greens

Arkansas, Oklahoma, and Mississippi

Weather patterns from the Gulf and Great Plains can influence this region, where winters range from mild to very cold. Spring warms up slowly and tends to stay cool and wet into June. Summer temperature conditions are not normally as hot or humid as in Texas and farther south, but temperatures in the 90s and 100s can last for short periods during late summer.

14
day program

Timing	Product	Active Ingredient	Rate/1,000 sq. ft.	Key Diseases & Benefits
1 Feb - Mar	Xzemplar® fungicide Secure® Segway® (if <i>Pythium</i> is present)	Fluxapyroxad Fluazinam Cyazofamid	0.26 fl oz SLR ¹ (Standard Local Rate)	Dollar spot, Fairy ring <i>Pythium</i> (if present), Dollar Spot
2 Apr	Navicon® Intrinsic® brand fungicide	Mefentrifluconazole + Pyraclostrobin	0.85 fl oz	Dollar spot, Fairy ring
3 May	Honor® Intrinsic® brand fungicide Spectro® 90	Pyraclostrobin + Boscalid Chlorothalonil + Thiophanate-methyl	1.11 fl oz SLR ¹	Aerification, Dollar spot, Fairy ring
4 Jun	Xzemplar® fungicide 26GT® Secure	Fluxapyroxad Iprodione Fluazinam	0.26 fl oz SLR ¹	Dollar spot, Fairy ring Brown patch, Leaf spot
5 Jul	Lexicon® Intrinsic brand fungicide Signature™ XTRA Stressgard® Daconil®	Pyraclostrobin + Fluxapyroxad Fosetyl-AL (Aluminum tris) Chlorothalonil	0.47 fl oz SLR ¹	Summer stress protection, Brown patch, Fairy ring, Anthracnose
6 Aug	Navicon Intrinsic brand fungicide 26GT + Daconil	Mefentrifluconazole + Pyraclostrobin Iprodione + Chlorothalonil	0.7-0.85 fl oz SLR ¹	Anthracnose, Fairy ring (rate disease dependent) Brown patch
7 Sept	Lexicon Intrinsic brand fungicide	Pyraclostrobin + Fluxapyroxad	0.47 fl oz	Summer protection, Dollar spot, Brown patch, Fairy ring, <i>Pythium</i>
8 Oct	Signature XTRA Stressgard Daconil	Fosetyl-AL (Aluminum tris) Chlorothalonil	SLR ¹	Dollar spot, <i>Pythium</i> (if present)
9 Nov	Lexicon Intrinsic brand fungicide	Pyraclostrobin + Fluxapyroxad	0.47 fl oz	Winter protection, Leaf spot
10 Dec	Daconil + Segway (if <i>Pythium</i> present)	Chlorothalonil + Cyazofamid (if needed)	SLR ¹	Leaf spot, algae, and <i>Pythium</i> (if present)

Multiple products listed per month are meant to be a rotational option to control additional disease pressure that may occur.

¹ SLR = Standard Local Rate for the products shown; consult local extension recommendations in your region.

Product timing is a suggestion only; optimize application for local weather and field conditions. Confirm active status of product registration in your state before using; not all products are registered in all states. Application Rate/1,000 sq. ft. is based on maximum label rate or range. Plant health benefit related to root strength, stress tolerance, resiliency and growth efficiency are specific to those BASF products containing pyraclostrobin.

Always read and follow label directions.
