

Central and North Texas Regional Turf Spray Program

Bermudagrass Greens – Warm Season Semi-dormant

With this geography-specific spray program, superintendents have a customized rotation management plan for disease control. Be sure and include these important rotations in your plan and have strong, resilient turf all year long.

- The turf-safe Maxtima® fungicide is a DMI that delivers long-lasting disease control of key diseases at any temperature for rotation flexibility and year-round confidence.
- The broad-spectrum DMI power of Navicon® Intrinsic® brand fungicide controls more than 20 major diseases while improving overall turf health from root to blade.
- Intrinsic® brand fungicides provide a strong foundation of plant health benefits, including broad-spectrum disease control, stronger roots and higher stress tolerance.

Central and North Texas Bermudagrass Greens

This territory is characterized by weather extremes that can vary quickly throughout the year. Winters can be cold and icy, or remain cloudy and wet for several weeks before turning mild, with low moisture and sunny conditions. Summers can see wide fluctuations as well, with very hot and humid conditions giving way to warm or hot, dry weather.

14-28
day program

Timing	Product	Active Ingredient	Rate/1,000 sq. ft.	Key Diseases & Benefits
1 Jan	Encartis™ fungicide	boscalid + chlorothalonil	4.0 fl oz	Algae, leaf spots, Microdochium patch
	Segway® fungicide	cyazofamid	SLR ¹ (Standard Local Rate)	<i>Pythium</i> (as needed)
2 Feb / Mar	Navicon® Intrinsic® brand fungicide	pyraclostrobin + mefentrifluconazole	0.85 fl oz (water-in ²)	Fairy ring, leaf spots, Microdochium patch, take-all root rot
	26GT fungicide	iprodione	SLR	
3 Apr	Xzemplar® fungicide	fluxapyroxad	0.26 fl oz (water-in)	Fairy ring, leaf spots, mini ring
	Signature XTRA Stressgard fungicide + Daconil® WeatherStik® fungicide	fosetyl-AI (aluminum-tris) + chlorothalonil	SLR	
4 May	Navicon Intrinsic brand fungicide	pyraclostrobin + mefentrifluconazole	0.85 fl oz (water-in)	Fairy ring, leaf spots, mini ring
5 Jun	Xzemplar fungicide	fluxapyroxad	0.26 fl oz (water-in)	Fairy ring, leaf spots, mini ring
	Signature XTRA Stressgard fungicide + Fore® 80WP Rainshield® specialty fungicide	fosetyl-AI (aluminum-tris) + mancozeb	SLR	
6 Jul	Lexicon® Intrinsic brand fungicide	pyraclostrobin + fluxapyroxad	0.47 fl oz (water-in)	Fairy ring, leaf spots, mini ring, summer stress
7 Aug	Encartis fungicide	boscalid + chlorothalonil	4.0 fl oz	Algae, leaf spots, tropical weather protection
	Fore 80WP Rainshield specialty fungicide	mancozeb	SLR	
8 Sept	Lexicon Intrinsic brand fungicide	pyraclostrobin + fluxapyroxad	0.47 fl oz (water-in)	Algae, leaf spots, take-all root rot, tropical weather protection
	Signature XTRA Stressgard fungicide + Daconil WeatherStik fungicide	fosetyl-AI (aluminum-tris) + chlorothalonil	SLR	
9 Oct	Navicon Intrinsic brand fungicide	pyraclostrobin + mefentrifluconazole	0.85 fl oz (water-in)	Leaf spots, spring dead spot, take-all root rot
	Signature XTRA Stressgard fungicide + Daconil WeatherStik fungicide	fosetyl-AI (aluminum-tris) + chlorothalonil	SLR	
10 Nov	Lexicon Intrinsic brand fungicide	pyraclostrobin + fluxapyroxad	0.47 fl oz (water-in)	Leaf spots, spring dead spot, take-all root rot, winter protection
11 Dec	Secure® fungicide	fluazinam	SLR	Leaf spots
	Segway® fungicide	cyazofamid	SLR	<i>Pythium</i> (as needed)

Multiple products listed per month are meant to be a rotational option to control additional disease pressure that may occur.

¹ Standard local rate for the products shown; consult label and/or local extension for regional recommendations

² Recommended application spray volume is 2-4 gallons/1000ft². Provide 1/4" irrigation post application. To improve hydrophobic conditions and improve fungicide efficacy, BASF recommends regular soil wetting agent applications during the growing season.

Product timing is a suggestion only; optimize application for local weather and field conditions. Confirm active status of product registration in your state before using; not all products are registered in all states. Application Rate/1,000 sq. ft. is based on maximum label rate or range. Plant health benefits related to root strength, stress tolerance, resiliency and growth efficiency are specific to those BASF products containing pyraclostrobin.

Always read and follow label directions.

Encartis is a trademark, and Intrinsic, Lexicon, Navicon and Xzemplar are registered trademarks of BASF. Signature is a trademark, and 26GT and Stressgard are registered trademarks of Bayer Environmental Science. Fore and Rainshield are registered trademarks of Corteva. Daconil, Secure and Weatherstik are registered trademarks of Syngenta Professional Products. Segway is a registered trademark of PBI Gordon.
