

Large Patch Max Assurance

A preventive program to protect warm-season fairways from large patch disease. Assured.

When it comes to golf course playing surfaces, we know you expect greatness. For years, our Intrinsic® brand fungicides have set the gold standard in disease control and plant health. Now, **Aramax™ Intrinsic® brand fungicide** steps up to the tee to deliver a foundation for resilient, healthy fairways.

The **Large Patch Max Assurance Program** from BASF combines two industry-leading solutions; **Aramax Intrinsic brand fungicide** and **Xzemplar® fungicide**, to protect warm-season fairways, tees and roughs from large patch disease. From fall-to-spring, let's take your fairways to the max.

Large Patch Max Assurance Program details

Follow the prescribed program on page 2 of this sheet with preventive fungicide applications in the fall followed by one application in the spring.

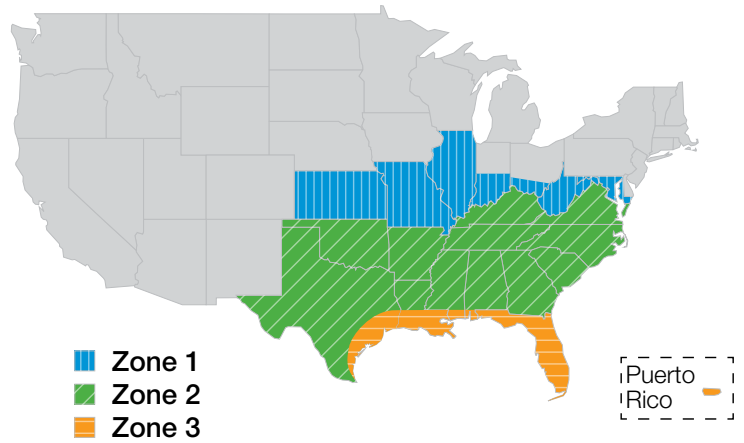

- BASF assures at least 90% control of large patch in the treated areas from the first preventive application until 28 days following the final spring application.
- If control failure occurs, BASF will supply product (at no cost) for one recovery application to affected areas.
- This assurance is limited to providing one recovery application, up to the total acres initially treated.
- Control failure and clean-up product selection is determined at the sole discretion of BASF representative. All claims must be reported within 28 days following last application.

Application details

Fall: Begin applications when soil temperatures are consistently below 68-70°F.

Spring: Make **one additional application** in the spring when soil temperatures are consistently above 55-60°F or at >50% green-up.

Use spray volume of at least 2 gallons/1,000 ft² or follow application with **light irrigation** (1/8" of water).

Zone 1

Rate per 1000 ft²

Fall: Make one application
Aramax™ Intrinsic® brand fungicide

1.0 fl oz

Spring: Make one additional application
Aramax Intrinsic brand fungicide

1.0 fl oz

Zone 2

Rate per 1000 ft²

Fall: Make two applications, 28 days apart
Aramax Intrinsic brand fungicide
Aramax Intrinsic brand fungicide

1.0 fl oz

1.0 fl oz

Optional Spring: Make one additional application (recommended in areas with severe disease pressure)
Xzemplar® fungicide

0.26 fl oz

Zone 3

Rate per 1000 ft²

Fall: Make two applications, 28 days apart
Aramax Intrinsic brand fungicide
Xzemplar fungicide

1.0 fl oz

0.26 fl oz

Spring: Make one additional application
Aramax Intrinsic brand fungicide

1.0 fl oz

Qualifications:

Follow regional spray program contained in this document based on timing, rates, approved products and application details. Claims must be filed within (28) days of seeing large patch breakthrough to your local BASF Sales Representative. All spray records will be required upon visit to your course by BASF rep. No claims will be processed without full spray records. The golf course must have purchased product used from a BASF Authorized Agent after January 1, 2024. The Large Patch Max Assurance program does NOT apply to purchases from other sub distributors and dealers and/or resellers.

Always read and follow label directions.

BASF reserves the right to cancel or modify this program at any time. Aramax is a trademark, and Intrinsic and Xzemplar are registered trademarks of BASF. ©2024 BASF Corporation. All rights reserved. PSS 24-30-818
