Snow Mold Max Assurance

A preventive program to protect greens, tees and fairways from snow mold. Assured.

When it comes to golf course playing surfaces, we know you expect greatness. For years, our Intrinsic® brand fungicides have set the gold standard in disease control and plant health. Now, **Aramax™ Intrinsic® brand fungicide** steps up to the tee to deliver a foundation for resilient, healthy turf.

The **Snow Mold Max Assurance Program** from BASF provides protection from pink, gray and speckled snow mold. Anchored with **Aramax Intrinsic brand fungicide**, the program is designed to fit with buildable disease coverage. Put your turf to sleep knowing all playing surfaces are protected to the max.

Snow Mold Max Assurance Program details

- Select a preventive option on page 2 of this sheet based on snow mold pressure and length of control required. Make a single application just prior to snow cover.
- BASF assures no more than 15% snow mold present in the spring after snow melt.
- If breakthrough occurs beyond 15%, BASF will supply product at no cost for one recovery application to affected areas.
- This assurance is limited to providing one recovery application up to the total acres initially treated.
- Control failure and clean-up product selection is determined at the sole discretion of BASF representative. All claims must be reported within 28 days after spring snow melt.

Application details

- Select the appropriate treatment option depending on expected snow mold pressure and desired length of control.
- Make a single application just prior to snowfall. For **Moderate** and **Moderate to High** pressure selections, **Aramax™ Intrinsic® brand fungicide** must be tank-mixed with additional fungicides as outlined below.

Take your turf to the max with buildable snow mold protection

Low to Moderate Pressure	Rate per 1000 ft ²	Length of control
Aramax Intrinsic brand fungicide	1.0 fl oz	90 to 100 days

Moderate Pressure	Rate per 1000 ft ²	Length of control
Tank Mix: 1. Aramax Intrinsic brand fungicide 2. Medallion SC fungicide	1.0 fl oz 1.0 fl oz	100 to 120 days

Moderate to High Pressure	Rate per 1000 ft ²	Length of control
Tank Mix: 1. Aramax Intrinsic brand fungicide 2. PCNB (4 lbs a.i. per gal) 3. Medallion® SC fungicide or Iprodione (2 lbs a.i. per gal)	1.0 fl oz 4.0 to 8.0 fl oz 1.0 fl oz 4.0 fl oz	120 to 140 days

Not treated

Aramax Intrinsic brand fungicide
1 fl oz / 1000 ft²

Qualifications:

Follow regional spray program contained in this document based on timing, rates, approved products and application details. Claims must be filed within (28) days of spring snow melt to your local BASF Sales Representative. All spray records will be required upon visit to your course by BASF rep. No claims will be processed without full spray records. The golf course must have purchased product used from a BASF Authorized Agent after January 1, 2024. The Snow Mold Max Assurance program does NOT apply to purchases from other sub distributors and dealers and/or resellers.

Always read and follow label directions.

BASF reserves the right to cancel or modify this program at any time. Aramax is a trademark and Intrinsic is a registered trademark of BASF. Medallion is a registered trademark of Syngenta Professional Products. ©2024 BASF Corporation. All rights reserved. PSS 24-30-819
