South Florida and Puerto Rico Regional Turf Spray Program

Warm Season Greens - Focus on Fairy Ring

With this geography-specific spray program, superintendents have a customized rotation management plan for disease control. Be sure and include these important rotations in your plan and have strong, resilient turf all year long.

- Intrinsic® brand fungicides provide a strong foundation of plant health benefits, including broad-spectrum disease control, stronger roots and higher stress tolerance.
- The turf-safe Maxtima® fungicide is a DMI that delivers long-lasting disease control of key diseases at any temperature for rotation flexibility and year-round confidence.
- The broad-spectrum DMI power of Navicon® Intrinsic® brand fungicide controls more than 20 major diseases while improving overall turf health from root to blade.

Warm Season Greens

South Florida and Puerto Rico

These regions offer optimum year-round temperatures for warm season turfgrass. Greatest stresses include extended cloud cover, tropical moisture and heavy rounds of concentrated play in season. Milder air from the coasts of South Florida and Puerto Rico mitigates the high humidity in these areas, where mid- to late-summer rain can occur daily.

14-28
day program

Timing	Product	Active Ingredient	Rate/1,000 sq. ft.	Key Diseases & Benefits
1 Aug	Xzemplar® fungicide	fluxapyroxad	0.26 fl oz (water-in ¹)	Fairy ring, leaf spots, tropical weather protection
	Fore® 80WP Rainshield® specialty fungicide	mancozeb	SLR ² (Standard Local Rate)	
2 Sept	Encartis™ fungicide	boscalid + chlorothalonil	4.0 fl oz	Algae, leaf spots, tropical weather protection
3 Oct	Mirage® Stressgard fungicide	tebuconazole	SLR (water-in)	Take-all root rot
	Signature XTRA Stressgard fungicide + Daconil WeatherStik fungicide	fosetyl-Al (aluminum-tris) + chlorothalonil	SLR	
4 Nov	Lexicon® Intrinsic® brand fungicide	pyraclostrobin + fluxapyroxad	0.47 fl oz (water-in)	Take-all root rot, winter protection
	Signature XTRA Stressgard fungicide + Daconil WeatherStik fungicide	fosetyl-Al (aluminum-tris) + chlorothalonil	SLR	
5 Dec	Insignia® Intrinsic brand fungicide	pyraclostrobin	0.7 fl oz (water-in)	Leaf spots, Microdochium Patch
	Segway® fungicide	cyazofamid	SLR	<i>Pythium</i> (if needed)
6 Jan	Signature XTRA Stressgard fungicide + 26GT fungicide	fosetyl-Al (aluminum-tris) + iprodione	SLR (water-in)	Leaf spots, Microdochium patch
	Segway fungicide	cyazofamid	SLR	<i>Pythium</i> (if needed)
7 Feb	Lexicon Intrinsic brand fungicide	pyraclostrobin + fluxapyroxad	0.47 fl oz (water-in)	Fairy ring, Leaf spots, Microdochium patch, take-all root rot
8 Mar	Lexicon Intrinsic brand fungicide	pyraclostrobin + fluxapyroxad	0.47 fl oz (water-in)	Fairy ring, take-all root rot
9 Apr	Maxtima® fungicide	mefentrifluconazole	0.8 fl oz (water-in)	Fairy ring, take-all root rot
10 May	Xzemplar fungicide	fluxapyroxad	0.26 fl oz (water-in)	Fairy ring, leaf spots, mini ring
	Signature XTRA Stressgard fungicide + Daconil WeatherStik fungicide	fosetyl-Al (aluminum tris) + chlorothalonil	SLR	
11 Jun	Navicon® Intrinsic brand fungicide	pyraclostrobin + mefentrifluconazole	0.85 fl oz (water-in)	Fairy ring, leaf spots, mini ring
12 Jul	Lexicon Intrinsic brand fungicide	pyraclostrobin + fluxapyroxad	0.47 fl oz (water-in)	Fairy ring, leaf spots, mini ring, summer stress
	Fore 80WP Rainshield specialty fungicide	mancozeb	SLR	

Multiple products listed per month are meant to be a rotational option to control additional disease pressure that may occur.

¹ Recommended application spray volume is 2-4 gallons/1000ft². Provide 1/4" irrigation post application. To improve hydrophobic conditions and improve fungicide efficacy, BASF recommends regular soil wetting agent applications during the growing season.

² Standard local rate for the products shown; consult label and/or local extension for regional recommendations

Product timing is a suggestion only; optimize application for local weather and field conditions. Confirm active status of product registration in your state before using; not all products are registered in all states. Application Rate/1,000 sq. ft. is based on maximum label rate or range. Plant health benefits related to root strength, stress tolerance, resiliency and growth efficiency are specific to those BASF products containing pyraclostrobin.

Always read and follow label directions.

Encartis is a trademark, and Insignia, Intrinsic, Lexicon, Maxtima, Navicon and Xzemplar are registered trademarks of BASF. Signature is a trademark, and 26GT, Mirage and Stressgard are registered trademarks of Bayer Environmental Science. Fore and Rainshield are registered trademarks of Corteva. Daconil and Weatherstik are registered trademarks of Syngenta Professional Products. Segway is a registered trademark of PBI Gordon.
