

Central and North Florida Regional Turf Spray Program

Non-Dormant Bermudagrass – Warm Season

With this geography-specific spray program, superintendents have a customized rotation management plan for disease control. Be sure and include these important rotations in your plan and have strong, resilient turf all year long.

- Intrinsic® brand fungicides provide a strong foundation of plant health benefits, including broad-spectrum disease control, stronger roots and higher stress tolerance.
- The new, turf-safe Maxtima® fungicide is a DMI that delivers long-lasting disease control of key diseases at any temperature for rotation flexibility and year-round confidence.
- The new, broad-spectrum DMI power of Navicon® Intrinsic® brand fungicide controls more than 20 major diseases while improving overall turf health from root to blade.

Central and North Florida Non-Dormant Bermudagrass

Long, cool springs can affect turfgrass growth in this region, though spring and fall tend to remain temperate. While turfgrass does not go dormant in winter, temperatures can dip below the 55-degree growing temperature for bermudagrass. Winter is considered the dry season, but unexpected weeks of clouds and rain sometimes occur. Summer months are humid, and the tropical season in late July and August can be wet and very cloudy for weeks at a time.

14-21
day program

Timing	Product	Active Ingredient	Rate/1,000 sq. ft.	Key Diseases & Benefits
1 Jan	Segway® Fore® 80WP Rainshield®	Mancozeb Cyazofamid	SLR ¹ (Standard Local Rate)	Leaf spots, <i>Pythium</i> (if present)
2 Feb	Navicon® Intrinsic® brand fungicide	Pyraclostrobin + Mefentrifluconazole	0.85 fl oz	Take-all Root Rot ² , Fairy ring, Leaf spots
3 Mar	Navicon Intrinsic brand fungicide	Pyraclostrobin + Mefentrifluconazole	0.85 fl oz	Take-all Root Rot ² , Fairy ring
4 Apr	Xzemplar® fungicide Signature™ XTRA Stressgard® Fore® 80WP Rainshield®	Fluxapyroxad Fosetyl-AL (Aluminum tris) Mancozeb	0.26 fl oz SLR ¹	Fairy ring, Leaf spots
5 May ³	Honor® Intrinsic brand fungicide	Pyraclostrobin + Boscalid	1.11 fl oz	Aerification, Fairy ring, Take-all Root Rot, Leaf spots
6 Jun	Xzemplar fungicide Signature XTRA Stressgard Fore 80WP Rainshield	Fluxapyroxad Fosetyl-AL (Aluminum tris) Mancozeb	0.26 fl oz SLR ¹	Fairy ring
7 Jul	26 GT® + Fore 80WP Rainshield fungicide	Iprodione + Mancozeb	SLR ¹	Leaf spots
8 Aug	Signature XTRA Stressgard Daconil®, Secure® or Fore 80WP Rainshield	Fosetyl-AL (Aluminum tris) Several	SLR ¹	Leaf spots
9 Sept	Lexicon Intrinsic brand fungicide Daconil, Secure, or Fore	Pyraclostrobin + Fluxapyroxad Chlorothalonil, Fluzinam, or Mancozeb	0.47 fl oz SLR ¹	Tropical weather protection, Leaf spots, Fairy ring
10 Oct	Navicon Intrinsic brand fungicide Segway Daconil	Pyraclostrobin + Mefentrifluconazole Cyazofamid Chlorothalonil	0.85 fl oz SLR ¹	Take-all Root Rot ² , Leaf spots, Fairy ring
11 Nov	Lexicon Intrinsic brand fungicide	Pyraclostrobin + Boscalid	0.47 fl oz	Take-all Root Rot ² , Fairy ring, Leaf spots
12 Dec	Segway Secure	Cyazofamid Fluazinam	SLR ¹	<i>Pythium</i> , Algae

Multiple products listed per month are meant to be a rotational option to control additional disease pressure that may occur.

¹ SLR = Standard Local Rate for the products shown; consult local extension recommendations in your region.

² Take-all Root Rot was previously referred to as Bermudagrass decline.

³ Lexicon Intrinsic brand fungicide or Honor Intrinsic brand fungicide may be applied before or after aerification in May for control of fairy ring, leaf spots and take-all root rot.

Product timing is a suggestion only; optimize application for local weather and field conditions. Confirm active status of product registration in your state before using; not all products are registered in all states. Application Rate/1,000 sq. ft. is based on maximum label rate or range. Claims related to root strength, stress tolerance, resiliency and growth efficiency are specific to those BASF products containing pyraclostrobin, as shown.

Always read and follow label directions.
