

BASF Intrinsic Holiday Spray Program – Cool Season Guide

The BASF Holiday Spray program is an easy-to-follow agronomic program designed to help your course thrive under the toughest conditions. Apply **Intrinsic**[®] brand fungicides before major summer holidays to protect your cool-season greens, fairways and tees from heavy disease pressure and summer stressors like heat, humidity and heavy traffic.

Apply **Intrinsic** brand fungicides to fairways, tees and surrounds in July and August to provide the optimal disease control and plant health foundation.

During July
Navicon Intrinsic brand fungicide
Honor[®] **Intrinsic** brand fungicide
Insignia[®] **Intrinsic** brand fungicide

Mid-August to Mid-September
Navicon Intrinsic brand fungicide
(ideal for dollar spot prep)
